

FLOOR MAINTENANCE

Recommendations

RECOMMENDATIONS FOR PARQUET USE

Use a mat/rug at the entrances to retain as much dirt and grit.

- Apply soft, sticky pads under chairs and furniture
- If using furniture with wheels, use a rug or a transparent plastic cover
- Whatever the finish or how hard the timber is, sharp objects can cause damage (High heels)
- All liquid spills must be cleaned immediately
- Never wash the floor with excess water (Damp mops are advised)
- Do not use aggressive or toxic detergents

MAINTENANCE ADVISE

AFTER LAYING

The parquet is protected by its factory finish. To guarantee a full protection, it is necessary to use the adapted maintenance products indicated in the table below.

REGULAR MAINTENANCE

Maintenance products help keep the original aspect of the parquet. Please see the suitable maintenance products in the table below.
